

Drying zone Metos WD-T60F R-L 400V3N~

Product information

SKU	4196814
Productnaam	Drying zone Metos WD-T60F R-L 400V3N~
Afmetingen	604 × 695 × 798 mm
Gewicht	42,000 kg
Technical information	400 V, 3,3 kW, 3NPE, 50 Hz, 61 dB

Description

WD-T60F will be installed on the 1600mm roller table with hood type machine. The RE-TURN system is specifically designed for washing and drying reusable plastic items such as plates, glasses, cutlery, and food containers. The RE-TURN system consists of a hood dishwasher, basin line, conveyor belt and a drying zone. The cycle time takes between 60 to 90 seconds. While one basket is washed a second one is being dried. This means that one cleaned and dried basket will be available every 60 to 90 second.

- suitable for dishes with little heat accumulating capacity
- powerful blow, heat and specially formed air ducts guarantee a perfect drying result
- extremely low energy consumption: element power only 3kW
- separate electrical connection
- Insulated with automatic start
- energy applied in drying is partly recovered in the heat recovery unit
- zone length 604 mm
- installation on the top of roller table, that leaves 200mm gap between

machines
