

Chrome water dispenser Metos Piccolo Fusion with PRO2 cooling unit

Product information

SKU	4213360
Productnaam	Chrome water dispenser Metos Piccolo Fusion with PRO2 cooling unit
Afmetingen	mm
Gewicht	24,000 kg
Capacity	1 litre / 40 seconds
Technical information	230 V, 10 A, 0,5 kW, 1NPE, 50 Hz CW: 1/2"
Type of the refrigerant	R600
Quantity of refrigerant [g]	36

Description

You can offer your customers with the built-in Metos Piccolo water dispenser cooled carbonated or cold tap water. The two LED-illuminated push-button taps are easy to use and its straightforward design is suitable for both the catering line and the hotel lobby.

The capacity of the water dispenser is 90 litres of carbonated water an hour or 150 litres cold water. The carbon dioxide required for use of the appliance is not included in the unit, but a separate lease agreement must be concluded with the gas supplier.

The refrigeration unit of the water dispenser is installed inside the serving unit, whereupon there is visible only an elegantly shaped chrome-plated faucet, and a drip tray that looks great in every setting. The faucet nozzle is 210 mm high, so the water delivery can also be made into a higher glass.

- cold carbonated water, cold water
- capacity 90 l/h carbonated water or 150l/h cold water
- tap nozzle at a height of 210 mm
- two push buttons for water options
- built-in

THE DELIVERY INCLUDES:

- tap
- cooling unit
- drip tray cover
- labels (carbonated water, cold water)
- filter
