Description

Metos Green Club ME 1GR is an automatic espresso machine that fits in a small space. The technology of the device helps and guides the user in making coffee and facilitates the cleaning of the device. Club series espresso machines with one group are ideal for a small café or office use, for example, when the taste of the coffee and the reliability of the appliance are important selection criteria. The black side panels and the shiny stainless steel that dominates the front give the machine a stylish, cool look.

Metos Green Club ME 1GR comes as standard with auto-level, single-scale manometer for the visualization of boiler pressure, volumetric pump. Provided with a multidirectional steam wand for preparing creamy cappuccinos and hot beverages and a hot water tap for tea. The automatic

version allows the beverage programming with the help of the electronic push button panel.

- with one coffee group, steam tap and hot water tap
- an automatic cleaning function that starts every six cups
- boiler size 4 liters
- black painted side panels
- black ABS plastic corner pieces protect the machine from knocks
- sturdy stainless steel frame
- front panel in mirror-polished stainless steel
- clear and easy-to-use keyboard with white LED backlight
- to facilitate maintenance, the technical components are positioned so that they can be exposed by removing the panels from the top and side of the device
