Description

Pomegranate flavouring is suitable for both tap water and carbonated water, giving it a fresh and tasty aroma. From one bottle of flavouring, (500 ml), to around 500 litres of flavoured water is obtained.

The flavouring contains innate and natural aromas, without calories, added sugar or preservatives. The product is intended for flavouring foodstuffs and complies with EU Directive 88/388 / EEC.

Unopened, the package keeps around 12 months. Store dry at room temperature (+12°C...24°C).
